

Data Sheet: wire stitch head 52/8-S SST-106 (or with clincher, wire guides & wire spools – SST-105)

52/8-S wire stitch heads may be used for booklets up to 10mm thick.

Smart-binders are normally supplied with two 52/8s stitch heads. To produce booklets with three stitches then an additional SST-105 wire stitch head (that includes clincher, wire guides and wire spools) is required. For 2-up booklet production then four stitch heads are required. **The two additional stitch heads with clinchers, wire guides and spools are part number SST-105-2.**

We recommend that customers carry a spare stitch head (ie without clincher, guides or spool) for their Smart-binder, part number SST-106.

52/8-S Wire Stitch Head
